Live Walking Virtual Tours in Venice

A virtual walking tour of the district of Venice called Dorsoduro

Starting at the Punta della Dogana and ranging all the way through the University area of Venice, the district of Dorsoduro in Venice is one of the richest "sestieri" in terms of art and architecture. During our virtual walk, we will see the Church of Salute, and the Gesuati dome, dedicated to St Mary of the Rosary, and view the Palladian church of Redentore across the canal on the island of Giudecca. We will pass by the oldest gondolayard still active after 400 years as well as the typical "bacaros" of Venice with their well-known "cicchetti" to end on top of the Accademia bridge for a final view of the Grand Canal.

A virtual walking tour of the district of Venice called Cannaregio

Starting at the Church of the Jesuits, we will move to the Fondamenta della Misericordia, pass by the old Brotherhood of Santa Maria Valverde and reach the Madonna dell'Orto church. We will then see the House of Tintoretto, the campo dei Mori and finally end by the Jewish ghetto. Cannaregio, lying north of Venice is a very popular area, unknown to most tourists and providing you with an interesting urban concept regarding Venice, rich in gardens and open spaces.

A virtual walking tour of the district of Venice called Castello

We will start from the Campo Santi Giovanni e Paolo with its Dominican Pantheon and the Scuola Grande San Marco, featuring the monument to Bartolomeo Colleoni and move towards the Arsenale where we end our tour, passing by the Church of San Francesco della Vigna. We will see narrow alleyways and the workers' district of the city, still very popular, but also well known for the Biennale exhibition areas.

A virtual walking tour of the districts of Venice called Santa Croce and San Polo

Starting at Campo San Giacomo dall'Orio, one of the liveliest square of the city of Venice, we will explore the area allowing for secret corners and impressive architecture, such as the Scuola Grande San Giovanni Evangelista, the Church of the "Frari" otherwise called Santa Maria Gloriosa, the Scuola Grande San Rocco, too.

A virtual walking tour of St Mark's square

Not just St Mark's church and the Doge's palace, but also the iconic Campanile or the elegant Clock Tower also known as the Moors', the Bridge of Sighs, the Marciana National Library, the ancient Mint and the Napoleonic wing and, why not?, the Olivetti Showroom designed by Carlo Scarpa: St Mark's square and its history in the architecture and art.

Live Museum Virtual Tour in Venice

A virtual museum tour at the Querini Stampalia Palace

Located just a few minutes away from St Mark's square, the palace used to be the home to one of the most influential aristocracy families in the Venetian history since the 14th century. The last owner, Conte Giovanni Querini, chose to bequeathe the property to a Foundation whose goal was to allow a public use of the building and its important heritage. The palace is the only one in Venice where the archive, the library, furniture and the art collection were not dispersed. Among art works by Giovanni Bellini, Pietro Longhi, Gabriel Bella and many more, the visit will allow you to discover a hidden Venetian jewel. Last but not least, on the groundfloor of the palace, you can enjoy the intervention by Carlo Scarpa that in 1959 re-invented an otherwise neglected space as an art exhibition area with a wonderful garden.

What you need to know to enjoy these tours at their best
